

UCLA Engineering Team Receives IARPA Funding

October 15, 2012

University of California Los Angeles
Henry Samueli School of Engineering and Applied Science

A team of four UCLA electrical engineering professors -- Lara Dolecek, Danijela Cabric, Greg Pottie, and Mani Srivastava -- has received a competitive \$500,000 seed contract for work with the Intelligence Advanced Research Projects Activity (IARPA) to improve the safety of large-scale information systems.
