

## 12 Month Status Report Interview Questions

While we are concerned about your overall experience with the U.S. Government, for this 12 Month Report, we are especially interested in your experience since the Hostage Policy Review (June of 2015).

Please note that these questions are guidelines. They are not meant to limit the conversation. Please feel free to discuss any concerns you have, even if they might not fall under these questions.

1. Since June of 2015, how would you characterize / describe your relationship with the U.S. Government? This includes, for example, the amount of information and support you've received.
2. Based on your experience, does that characterization represent a change since before June of 2015?
3. Do you now feel like you have an improved understanding of what the U.S. Government can and cannot do?
4. Are there any areas where the U.S. Government has been particularly helpful or particularly challenging?
5. Is there anything else the U.S. Government should be doing to assist you in bringing your loved one home?
