- A current Federal Government employee, selected for a detail assignment, will be assigned to the position at his or her current grade and salary.

## Component Mission

The National Counterproliferation Center (NCPC) coordinates strategic planning with the Intelligence Community (IC) to enhance intelligence support to the United States (U.S.) efforts to stem proliferation of weapons of mass destruction and related delivery systems. It works with the IC to identify critical intelligence gaps or shortfalls in collection, analysis, or exploitation; and develop solutions to ameliorate or close these gaps. It also works with the IC to identify long-term proliferation threats and requirements and develop strategies to ensure the IC is positioned to address these threats and issues. NCPC reaches out to elements both inside and outside the IC and the U.S. Government (USG) to identify new methods or technologies that can enhance the capabilities of the IC to detect and defeat future proliferation threats.

## Major Duties and Responsibilities (MDRs)

Plan and complete assessments of the IC's progress towards mission and enterprise strategic objectives and determine how well the IC is postured for future-environments.

Develop and implement innovative approaches, and provide structured recommendations focused on the advancement of IC collaboration and analysis against the proliferation of chemical warfare, biological warfare, nuclear warfare, or WMD delivery systems.

Work collaboratively within NCPC and across ODNI and the CP community to develop, review, update, and implement plans and policies to advance IC chemical warfare, biological warfare, nuclear warfare, or WMD delivery systems analysis and collection.

## Mandatory and Educational Requirements

Ability to evaluate strategic trends, strategy and implementation plans, results, and programmatic data, propose innovative solutions, and implement change.

IC experience demonstrating broad and deep insight into the IC's structure, roles and responsibilities, and intelligence capabilities.

Excellent oral and written communication skills and demonstrated ability to filter and synthesize data, and produce clear, logical, and concise products.

Excellent interpersonal, organizational, and management skills to conceptualize and effectively lead complex projects with limited supervision; superior ability to work with and represent NCPC to the CP community on complex issues.

Ability to exercise independent judgement on time-sensitive issues and work collaboratively across the IC.

## Desired Requirements

Demonstrated experience and knowledge of chemical warfare, biological warfare, nuclear warfare, or WMD delivery system issues, including the relationship between collection needs and the analytic process, foreign developments, research, scientific and technical advancements, and denial and deception capabilities.

Strong analytic and critical thinking skills, including superior ability to think strategically, to identify intelligence requirements, and to develop innovative recommendations and solutions.

demonstrated ability to communicate organizational vision, mission, and plans, and to logically analyze, synthesize, and evaluate multiple sources of information.

Demonstrated negotiations and leadership skills, and ability to exert influence and build consensus, and experience in reconciling competing interests.
