Component Mission

The National Counterterrorism Center (NCTC) leads our nation's effort to combat terrorism at home and abroad by analyzing the threat, sharing that information with our partners, and integrating all instruments of national power to ensure unity of effort. The Center serves as the primary organization in the United States Government (USG) for analyzing and integrating all intelligence possessed or acquired by the USG pertaining to terrorism and counterterrorism, and its Director serves as the Counterterrorism Mission Manager. NCTC also serves as the central and shared knowledge bank on known and suspected terrorists and international terrorist groups, as well as their goals, strategies, capabilities, and networks of contacts and support. In addition, NCTC conducts strategic operational planning for counterterrorism activities, coordinating and integrating the efforts of departments and agencies across the Federal Government.

Major Duties and Responsibilities (MDRs)

This position is part of the Directorate of Identity Intelligence (DII) Team. This position will be responsible for populating the Terrorist Identities Datamart Environment (TIDE), the U.S. Government's (USG) central and shared repository of international terrorist identities information. They work with data from across the Intelligence Community, Federal Bureau of Investigation and other sources. The team's identity management efforts then furnish the FBI's Terrorist Screening Center (TSC) with international terrorist identity information for inclusion in the USG's consolidated terrorist Watchlist, the Terrorist Screening Database. Duties include:

- Assist analysts and oversee use of Intelligence Community and Law Enforcement tools, methodologies, and data systems to perform advanced encounter analysis to develop new lead information for Encounter Information Report cable dissemination to the counterterrorism community.
- Provide technical guidance and instruction to analysts on tools and methodologies to research, review, interpret, and evaluate information to further identify and develop intelligence on high interest terrorist identities travel and encounter events.
- Assist analysts and oversee the compilation, analysis and reporting, which includes developing data visualization products, participation in working groups, and writing clear, concise, well-reasoned analytical reports.
- Provide expert support for timely responses to tasks, ad-hoc requests, and requests for information associated with missions and objectives.
- Actively participate with internal NCTC, DII, and external partners for TIDE development and technical requirement matters pertaining to encounters.

- Keep staff and DII stakeholders informed of FBI, DHS and other government agencies encounter program discussions, data sharing and acquisition actions, and/or other interests.
- Collaborate within NCTC and other forums to promote encounters analysis and integration in support of DII requirements, objectives, and priorities.

Mandatory and Educational Requirements

- Demonstrated all-source analysis expertise, ability to plan and organize work to include gathering, analyzing findings, and presenting facts in such a manner as to accomplish projects and/or studies within established time constraints.
- Demonstrated ability to write intelligence information papers using analytic tradecraft standards, provide document reviews, and prepare and deliver intelligence briefings of value for senior leadership.
- Expert ability reviewing and incorporating multiple sources of information in reporting and correspondence as well as briefing project status on a regular basis.
- Demonstrated ability to monitor the effectiveness of program operations and recommend actions in accordance to doctrine, regulation or implement changes as directed to resolve shortfalls or objectives related to processing, analysis, production and other requirements.
- Superior ability to communicate clearly, both orally and in writing, as a member of a national level counterterrorism working group, focus group, or consultant on analytical issues.
- Experience, or ability to acquire skills necessary, to use link analysis, geographic information systems, Spotfire, TIDE and various intelligence tools to develop innovative data visualization products and socialize the meaning of the related data.
