## Salary Determination

- The ODNI uses a rank-in-person system in which rank is attached to the individual. A selected ODNI candidate or other Federal Government candidate will be assigned to the position at the employee's current GS grade and salary.
- A current Federal Government employee, selected for a detail, will be assigned to the position at his or her current grade and salary.

## Component Mission

The Office of the Director of National Intelligence (ODNI) Deputy Director of National Intelligence for Intelligence Integration (DDNI/II) serves as the Director of National Intelligence's (DNI) senior leader for intelligence integration across the IC enterprise. DDNI/II is responsible for ensuring customer outcomes by leading advances in collection and analysis that ensure the quality, timeliness, and utility of insights for the nation's decision-makers. Additionally, DDNI/II is responsible for increasing expertise and improving tradecraft at all levels through specialization, integration, and collaboration. DDNI/II is responsible for the strategic vision, direction, and planning to deliver a more integrated IC reflecting the collective wisdom of our collection and analytic components to advance, in support of the National Intelligence Managers, the Unifying Intelligence Strategies (UIS).

## Major Duties and Responsibilities (MDRs)

- Serve as Chief, Data Science and Analytic Services Program, leading and developing professional staff and directing nine contract data scientists and technical specialists to provide state-of-the-art data management, data science, and analytics capabilities for ODNI customers.
- Design, create and modify datasets, build and manage important IC cloud-based databases (including the Library of National Intelligence), and produce data visualizations and analytics.
- Build and lead ODNI and IC-level communities of interest driving strategic changes in business analytics and data-driven decision making and assuring rigorous quality control and governance of data sets.
- Manage a wide range of statistical, software development, and analytic tools on IC networks, including Amazon Web Services capabilities, web development and Sharepoint services, survey and statistical analysis software, data analysis and visualization tools, and custom data processing algorithms, scripts, and tools.
- Plan and manage the application of statistical or operations research methods, analytical techniques, and other methodologies in order to inform resource, strategy, and policy decisions within the Office of the Director of National Intelligence (ODNI) and the IC.
- Plan and develop background papers, talking points and other analytic products to support IC senior leadership to make informed programmatic decisions.
- Initiate, cultivate, and maintain productive working relationships with IC stakeholders, colleagues, and users to analyze systems and operations performance metrics, reporting requirements, and exchange knowledge and leverage information sharing techniques regarding current and proposed programs.
