

This is a letter dated 18 JUL 2010 by 'Atiyyah asking Abu-Basir for his feedback on a very sensitive matter which is still in discussion with Abu-'Abdallah [T.C: UBL] about the war in Yemen and the Arabian Peninsula and only to be handled by very few such as Anwar al-'Awlaqi besides the recipient. The opinion is to keep the status quo in Yemen [No war and No peace] with the government by signing a truce under the cover of the tribes or sending messages thru mediators to leave "us" alone in exchange of focusing on America. The purpose is to focus on striking inside America and its interests abroad especially oil producing countries to agitate public opinion and to force US to withdraw from Afghanistan and Iraq. The letter recommends extra security measures for Anwar al-'Awlaqi that requires him to change his way of life and to write a letter in English to Adam Ghadan for cooperation in Jihad media efforts. 'Atiyyah recommends not repeating the mistakes by AQIZ against the tribes in Iraq and assures that he signed treaties with tribes in Yemen and they are harboring al-Qaida, stating that similar mistakes have been made in Yemen by attacking the tribes. 'Atiyyah is referencing to the attack on the US embassy in Yemen recommending more experienced persons, and to carry out future suicide attacks by more than one individual for moral, cover up and backup inside airplanes and elsewhere. 'Atiyyah recommends forming a committee of Abu-Basir, Shaykh Mahmud, and Shaykh Abu-Yahya to filter the products of As Sahab publication.
